### Mowing Duties are as Follows—

We have named the Saturdays for each week, but the actual mowing may vary a day or two for weather or personal schedule. Some areas need mowing every week; where the grass is sparse or when dry weather sets in, some parts may be omitted occasionally. The church owns two mowers that are kept in the Ag building; one uses gas, the other diesel—**DON'T CONFUSE THE TWO!** We keep gas and diesel in cans in the Ag building; let John Ivan know if the cans are nearly empty.

If you bring another mower and operator it can cut the time further! There is a lock box on the door handle of the Ag building with a key inside for the Ag building; the lock box code is 6083, the street number of our address.

IF THE DATE LISTED DOESN'T SUIT, you are in charge of finding someone to swap dates with.

If you do swap dates with someone, please call the church office so the correct name will be listed in the bulletin.
